

*Do you enjoy a hands-on approach and have a passion for wireless communications?*

Prairie Mobile Communications is a leading Wireless Communications sales and service company in Canada. We started from humble beginnings in 1968 in a local garage, to what is now one of Kenwood Canada's largest Land Mobile Radio Dealers and one of SaskTel's largest Authorized Dealers with 24 locations across the Prairies. We offer SaskTel Cellular & Data, Internet, and Max TV services in Saskatchewan, along with two-way radio sales and service throughout Alberta, Saskatchewan, Manitoba, and Northwest Ontario. We are proud to partner with SaskTel, Kenwood, Motorola, Icom, L3Harris, PBE and many other great companies!

#### **The Role:**

Prairie Mobile Communications is growing and looking to build a team of exceptional talent who share our core values and will place an emphasis on enhanced customer experience. We are looking for a driven **Service Technician** to join our two-way radio service team in Regina, SK. All levels of experience are welcome to apply.

As a valuable member of our service team, your focus will be on meeting customer expectations regarding two-way radio communications products and services. You will join a dynamic team of service technicians and assist with troubleshooting, diagnosing, repair, and maintenance of electronic equipment. This role may also be involved in installation of equipment in shop and field environments, as well as in buildings and various kinds of vehicles. If you enjoy a hands-on approach and learning about new technology, this role may be for you!

#### **Key Duties:**

- Troubleshoot, diagnose, and repair electronic equipment, including radio receiver and transceiver units, pagers, cell-phone boosters, accessories, coaxial cable and test equipment.
- Program radio equipment for the sales and service department, and design and build various hardware to perform this function.
- Install communications equipment in shop and field environments, as well as in buildings and various kinds of vehicles (i.e. police automobiles, ambulances, trucks, etc.).
- Provide internal advice on technical matters concerning radio and test equipment to the sales and service departments.

#### **Qualifications:**

- A recognized certificate or diploma in a related field such as Telecommunications Networking, Communications Engineering Technology or RF Electronics (an equivalent combination of education and work experience may be considered).
- Three (3) years' experience in a similar role is preferred (will train the right candidate).

- Experience in repair and programming two-way radios, antennae, coax cable and connectors and remote terminals.
- Strong communication and interpersonal skills.
- Excellent time management and organization skills.
- Ability to work independently as well as part of a team.
- Be mechanically inclined and able to work with and maintain hand tools and small power tools.
- Ability to install software.
- Knowledge of Epicor or another ERP is an asset.
- Valid driver's license for travel to customer sites as required.

**We Offer:**

- Competitive hourly rate.
- Comprehensive benefits including extended health, dental, vision and more.
- RRSP matching and Educational Assistance Program.
- Continuous training and coaching to succeed in your role.
- Respectful and exciting workplace environment driven by our company culture values.

**Find your fit and help us connect people to what's important to them.**

To apply, please submit your resume online at [prairiemobile.com/careers](https://prairiemobile.com/careers) or send an e-mail to [careers@prairiemobile.com](mailto:careers@prairiemobile.com). Please include the position and location you are applying for in the subject line.

*Prairie Mobile Communications is an equal opportunity employer.  
We thank all applicants for their interest. Only those selected for interviews will be contacted.*
